WE ARE HIRING

SOFTWARE ENGINEERING TUTOR

Somakodi School is looking for a passionate and skilled Software Engineering Tutor to join our online teaching team. We are dedicated to empowering learners with practical, modern digital skills and we want someone who can inspire, guide, and mentor students as they begin or advance their tech careers.

Key Responsibilities

- Teach and mentor students in software engineering fundamentals and advanced concepts.
- Deliver online lessons through live classes, recorded sessions, and interactive activities.
- Support learners with coding challenges, practical tasks, and real-world projects.
- Provide instruction on clean code principles, debugging, and development best practices.
- Assist students in using tools such as Git, GitHub, VS Code, and modern frameworks.
- Prepare and update course materials based on the Somakodi curriculum.
- Track learner progress and offer constructive, timely feedback.

Required Qualifications

- Strong knowledge of modern programming languages (e.g., Python, JavaScript).
- Familiarity with both frontend and backend development is a plus.
- Understanding of cloud services (AWS or Azure) is an added advantage.
- Experience with software development tools like version control, code editors, and package managers.
- Previous teaching, tutoring, or mentorship experience is a bonus but not required.
- Excellent communication skills and the ability to explain technical concepts clearly.
